### Membership Criteria of The Movement of Non-Aligned Countries

1. The Country should have adopted an independent policy based on the coexistence of States with different political and social systems and on non-alignment, or it should have shown a tendency to favor such a policy.
2. The Country in question should support national independence movements in a consistent manner.
3. The Country should not be a member of a multilateral military alliance concluded in the context of great power conflicts.
4. If the Country has a bilateral military agreement with a great power or it is a member of a regional defense pact, the agreement or pact should have not been concluded deliberately in the context of great power conflicts.
5. If the Country has granted military bases to a foreign power, the concession should have not been made in the context of great power conflicts.
