

EMBASSY OF INDIA LUANDA

17July2019

Ambassador of India met Angolan Minister of Higher Education, Science, Technology and Innovation - Dr. Maria do Rosário Bragança Sambo on 17 July 2019.

Issues discussed during the meeting focused on cooperation in the Higher Education sector. This included sharing of Indian expertise in Education and Information Technology (IT), supporting the Angolan government in capacity building in key areas of higher education and exploring ways and means to facilitate English Language teaching for students in Polytechnic Schools in Luanda and provinces through use of Information Technology.

Also covered in the discussions was the Indian Government's recently proposed initiative to share Indian expertise in Information Technology (IT) through the e-VidyaBharati and e-ArogyaBharati Network Project (e-VBAB platform) to bring benefits of higher education and healthcare to the Angolan people.
