

Artificial Intelligence: Current Policy Reflections and Future Strategies

United Nations Office at Geneva | 18 May, 2018

The Permanent Mission of India to the Conference on Disarmament in partnership with the Observer Research Foundation is convening a one-day event on the sidelines of ITU's AI for Good Summit in Geneva on May 18, 2018. The event will focus on a cross-domain and cross-jurisdictional exchange on the use, development and promotion of artificial intelligence.

Speakers and participants at the event will represent a wide array of stakeholders from governments, private sector to academia. The panels will in particular focus on the role of AI in governance in emerging economies, the creation of normative frameworks to promote AI use and finally the state of adoption of AI in the private sector and its potential.

AGENDA

Date: 18 May, 2018 | Venue: Room XI, Palais des Nations, Geneva
