

India - Thailand Relations

India and Thailand, located in each other's extended neighborhood, share a maritime boundary in the Andaman Sea. India's bilateral relations with Thailand are rooted in history, age-old social and cultural interactions and extensive people to people contacts. The shared link of Buddhism is reflected in regular pilgrimages to places of Buddhist interest in India by a large number of Thai people. Hindu elements can be found among those reflected in Thai architecture, arts, sculpture, dance, drama and literature. The Thai language incorporates Pali and Sanskrit influences. A large Indian Diaspora living and working in Thailand is another important bond.

In the past two decades, with regular political exchanges, growing trade and investment, India's ties with Thailand have now evolved into a comprehensive partnership. India's 'Act East' policy has been complemented by Thailand's 'Act West' policy in bringing the two countries closer. Both countries are important regional partners linking South and Southeast Asia. They cooperate closely in the ASEAN, East Asia Summit (EAS) and BIMSTEC groupings as also Mekong Ganga Cooperation (MGC), Asia Cooperation Dialogue (ACD) and Indian Ocean Rim Association (IORA). The India-ASEAN Agreement on Trade in Goods was implemented in January 2010 and the India-ASEAN FTA in Services and Investments was signed in September 2014 and came into force in July 2015.
